- Describe the organization and contents of a WebLogic Server domain directory
- Describe the structure and parts of a Java enterprise application
- Describe what a deployment plan does
- Desribe a WebLogic Server cluster
- Explain how proxy plug-ins perform load balancing and failover

If this is the final exam in your certification path, you are required to complete the following steps.

- Visit certification.oracle.com and select your certification path to ensure you are aware of all certification requirements.
  - Note that completion of the required training and approval of the course submission form are also required in paths that require training.

- Check certview.oracle.com to confirm that all completed components are in your profile.
  - If exams that you have taken do not show up, you may have taken them under a different Oracle Testing ID.
  - Contact www.pearsonvue.com/oracle/contact to merge your IDs (provide all IDs under which you have taken exams or submitted forms and confirm which ID should be the 'surviving id').
